Sconce COLTON W01111BK

Technical data	
Szerokość	**11.50cm**
Wysokość	**53.00cm**
Color	**Black**
Material	**Metal, Glass**
Room	**Garden**
Type	**Outdoor**
Socket	**E27**
Number of light sources	**1**
Maximum power	**40W**
Light sources included	**No**
IP rating	**IP44**
EAN	**5902115965111**

Add a distinctive, modern character to your façade with the COLTON outdoor wall light - a minimalist fixture that combines a geometric form with a decorative cylindrical glass shade. The black metal construction creates an elegant frame for the glass shade, showcasing the light source and giving the fixture a timeless appearance.

Benefits:
- Enhance the character of your façade with a distinctive geometric form in a black finish.
- Make use of the glass shade, which showcases the light source and gives the fixture a light, decorative appearance.
- Create elegant lighting for an entrance, terrace or other outdoor spaces.
- Combine classic proportions with a modern, minimalist construction.
- Choose a versatile design that complements both modern and more traditional architecture.

Applications:
The COLTON outdoor wall light is ideal for entrances, façades, terraces, verandas and other outdoor spaces. Its black geometric form works well with modern classic, contemporary, minimalist and industrial interiors and architecture. With a height of 53cm and a slender construction, it can also be used as part of a larger lighting composition on the facade.
