Pendant lamp BOSTON P12826BR

Industrial, geometric.
BOSTON is a ceiling lamp designed to resemble an electric-hydraulic installation. It has as many as 12 light sources enclosed in glass bulbs (each with a diameter of 13.5 cm) and mounted on a rigid steel frame.
It fits brilliantly into the industrial style of lofts, for which the use of a large number of industrial lamps is one of the flagship features.

Technical data
