Rich, light.
It’s simply impressive! Brilliant design, richness of form, all while maintaining the lightness and symmetry of the whole. The chandelier with diameter of 53 cm is made of a huge number of glass tubes mounted on a champagne-colored metal frame.
The glass is of different lengths, which gives the impression that the lamp has a different shape depending on the place and angle from which we observe it. Seven light sources mounted in the lamp fantastically illuminate the glass, making this chandelier a unique work of art.
